

SAFETY DATA SHEET

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**1.1. Product identifier**

Product Name : Air

Other Names : Compressed Air

1.2. Relevant identified uses of the substance or mixture and uses advised against**Relevant identified uses**

Industrial and professional. Perform risk assessment prior to use.

1.3. Details of the supplier of the SDS

Company : Irish Oxygen Co Ltd,
Identification Waterfall Road, Cork

Email : sds@irishoxygen.com

1.4. Emergency telephone number

Emergency : 021-4541821
Telephone (Mon-Fri 08:30-17:30)

2. HAZARDS IDENTIFICATION**2.1. Classification of the Substance or Mixture**

(a) Classification according to Regulation (EC) No 1272/2008/EC [CLP/GHS]

Press. Gas (Compressed gas)

H280: Contains gas under pressure; may explode if heated

(b) Classification according to Directive 67/548/EEC & 1999/45/EC

Not classified as hazardous to health.

2.2. Label Elements**Hazard pictograms**

GHS04

Signal word

WARNING

Hazard statements

H280: Contains gas under pressure; may explode if heated

Precautionary statements***Prevention***

None

Response

None

Storage

P403: Store in a well-ventilated place.

Disposal

None

2.3. Other Hazards

None.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture: Substance

3.1. Substances

Substance : Air
Name

CAS No. : 132259-10-0

EC No. : n/a

3.2. Mixtures

Not applicable.

4. FIRST AID MEASURES**4.1. Description of first aid measures****Following inhalation**

Adverse effects not expected from this product.

Following skin contact

Adverse effects not expected from this product.

Following eye contact

Adverse effects not expected from this product.

Following Ingestion

Ingestion is not considered a potential route of exposure.

4.2. Most important symptoms and effects, both acute and delayed

No effect on living tissue.

4.3. Indication of any immediate medical attention and special treatment needed

None.

5. FIRE-FIGHTING MEASURES

5.1. Extinguishing media

Suitable extinguishing media

All known extinguishants can be used.

5.2. Special hazards arising from the substance or mixture

Specific hazards

Exposure to fire may cause containers to rupture/explode.

Supports combustion.

Hazardous combustion products

None.

5.3. Advice for fire-fighters

Specific methods

Coordinate fire measure to the surrounding fire. Cool endangered containers with water spray jet from a protected position. Do not empty contaminated fire water into drains.

Special protective equipment for fire-fighters

None.

6. ACCIDENTAL RELEASE MEASURES

6.1. Personal precautions, protective equipment and emergency procedures

None.

6.2. Environmental precautions

None.

6.3. Methods and material for containment and cleaning up

None.

6.4. Reference to other sections

See also sections 8 and 13.

7. HANDLING AND STORAGE

7.1. Precautions for safe handling

Safe use of the product

Use only properly specified equipment which is suitable for this product, its supply pressure and temperature. Contact your gas supplier if in doubt.

Do not allow backfeed into the container.

Do not smoke while handling product.

Avoid suckback of water, acid or alkalis.

Only experienced and properly instructed persons should handle gases under pressure.

Ensure the complete gas system has been (or is regularly) checked for leaks before use.

The substance must be handled in accordance with good industrial hygiene and safety procedures.

Safe handling of the gas receptacle

Suck back of water into the container must be prevented.

Refer to supplier's container handling instructions.

Protect cylinders from physical damage; do not drag, roll, slide or drop.

Do not remove or deface labels provided by the supplier for the identification of the cylinder contents.

When moving cylinders, even for short distances, use a cart (trolley, hand truck, etc.) designed to transport cylinders.

If user experiences any difficulty operating cylinder valve discontinue use and contact supplier.

Close container valve after each use and when empty, even if still connected to equipment.

Never attempt to repair or modify container valves or safety relief devices.

Damaged valves should be reported immediately to the supplier.

Keep container valve outlets clean and free from contaminants particularly oil and water.

Never attempt to transfer gases from one cylinder/container to another.

Never use direct flame or electrical heating devices to raise the pressure of a container.

Do not remove valve guard from cylinder.

7.2. Conditions for safe storage, including any incompatibilities

Keep container below 50°C in a well ventilated place.

Stored containers should be periodically checked for general condition and leakage.

Observe all regulations and local requirements regarding storage of containers.

Containers should not be stored in conditions likely to encourage corrosion.

Containers should be stored in the vertical position and properly secured to prevent toppling.

Container valve guards or caps should be in place.

Store containers in location free from fire risk and away from sources of heat and ignition.

Keep away from combustible materials.

7.3. Specific end use(s)

None.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure controls

Appropriate engineering controls

Systems under pressure should be regularly checked for leakages.

Consider the use of a work permit system, e.g. for maintenance activities.

Personal protective equipment

A risk assessment should be conducted and documented in each work area to assess the risks related to the use of the product and to select the PPE that matches the relevant risk. The following recommendations should be considered:

Wear safety gloves and safety shoes when handling cylinders.

Wear safety glasses with side shields.

Environmental exposure controls

None necessary.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

Appearance

- **Physical state at 20°C / 101.3kPa** : Gas
- **Colour:** : Colourless
- Odour** : Odourless.
- Relative density, gas (air=1)** : 1

9.2. Other information

None.

10. STABILITY AND REACTIVITY

10.1. Reactivity

No reactivity hazard other than the effects described in sub-sections below.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

None.

10.4. Conditions to avoid

None under recommended storage and handling conditions (see section 7).

10.5. Incompatible materials

None.

10.6. Hazardous decomposition products

None.

11. TOXICOLOGICAL INFORMATION

No toxicological effects from this product.

12. ECOLOGICAL INFORMATION

No ecological damage caused by this product.

13. DISPOSAL CONSIDERATIONS

13.1. Waste treatment methods

May be vented to atmosphere.

13.2. Additional information

None.

14. TRANSPORT INFORMATION

UN Number	: 1002
Proper shipping name	: AIR, COMPRESSED
Class	: 2
Classification code	: 1 A
Hazard labels	: 2.2 (Non flammable, non-toxic gases)
Packing instructions	: P200
Hazard identification number	: 20
Tunnel restriction code	: E
IMDG Emergency schedule-fire	: F-C
IMDG Emergency schedule-spillage	: S-V
Environmental hazards	: None
Special provisions	: None

Other transport information

Avoid transport on vehicles where the load space is not separated from the driver's compartment.

Ensure vehicle driver is aware of the potential hazards of the load and knows what to do in the event of an accident or an emergency.

Before transporting product containers:

- Ensure that containers are firmly secured.
- Ensure cylinder valve is closed and not leaking.
- Ensure valve outlet cap nut or plug (where provided) is correctly fitted.
- Ensure valve protection device (where provided) is correctly fitted.
- Ensure there is adequate ventilation.

- Ensure compliance with applicable regulations.

15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

Seveso Directive 96/82/EC : Not covered

National legislation : Ensure all national/local regulations are observed.

16. OTHER INFORMATION

16.1. Training advices

None.

16.2. Disclaimer

Before using this product in any new process or experiment, a thorough material compatibility and safety study should be carried out.

Details given in this document are believed to be correct at the time of going to press.

Whilst proper care has been taken in the preparation of this document, no liability for injury or damage resulting from its use can be accepted.
